

# Enclosures CLASSIC

CLASSIC enclosures protect all types of jet wash, rollovers, and tunnels thanks to their modular design, adaptable to any size space. Right from simple one-bay structures, to large enclosures built using add-on modules.

ISTOBAL always supplies products that ensure optimum preservation. Aluminium, hot-dip galvanised steel, and stainless steel bolts and screws contribute to minimising maintenance and extending the life of modular set ups.

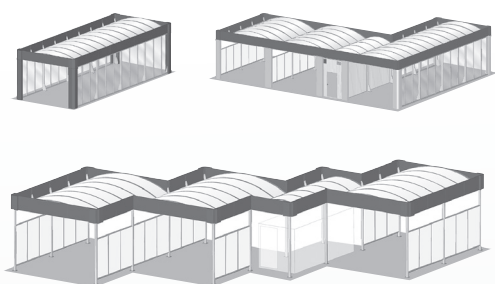

## MODULAR SET-UPS:

- Enclosures for vacuum cleaners
- Standard enclosures for jet wash
- Enclosures for jet wash, rollovers and wash tunnels
- Set-ups with a varying number of bays
- Facilities with engine room
- Mixed set-ups (jet wash/rollover/tunnel...)

## MODELS

	Application	Dimensions, minimum bay	
		Length m.	Width m.
MA	for vacuum cleaners	4.30	4.50
MB	for jet washes	5.35	4.50 or 4.80
MC	for jet washes	6.40	4.50 or 4.80
MP	for rollover and wash tunnels	9.60 and +	4.50 or 4.80
